“Ministry Minded” are the two words that we think of when we hear or see The Moneys. These are people that are focused on their call to minister with Southern Gospel music! By having known this group and their families, we have felt the power of God encourage us personally, touch our hearts and confirm to us time and time again that God uses his people to do His work. The Moneys accomplish in music what all Christians are commanded to do.....lift up Jesus Christ.”

“In the short time that we have had the privilege of getting to know The Moneys as well as those wonderful opportunities where we were able to minister together, The Moneys have been a real encouragement and blessing to Shiloh and to those in attendance. Through their presentation of the gospel in music, The Moneys illustrate the kind of joy and excitement that all Christians should enjoy, and they present heart stirring songs that will encourage a closer walk with the Lord. We count it an honor to count them as our friends.”
